PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IPIC (DIA). The photographic analysis for this particular report was performed by the Production Center IPIC.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

25X9 SUMMARY

25X1D 25X1D

25X9

An ammunition storage depot [redacted] is located on the south-southwest outskirts of Kalinovka and 18 kilometers (km) from Vinnitsa (Figure 1). This fenced installation covers 700 acres and is road served. The

[redacted] made from photography of [redacted] mission revealed only four buildings, possibly fenced, in a wooded area. Photography of [redacted] revealed a more extensively fenced area containing several more possible ammunition storage buildings and a probable cruciform building with an excavation nearby. [redacted] photography revealed an even larger fenced area, a few more storage/support buildings, and a bunker under construction at the site of the cruciform building.

ings along the road. One small building is located outside the fence. No definite road pattern is apparent within the area.

A comparative study of this installation was

The installation is active, but apparently not yet complete. Several buildings are located just outside the fence on the north and east sides of the installation, but they are probably not associated with the enclosed area.

DESCRIPTION OF INSTALLATION

Railroad Service

The Kalinovka-Vinnitsa railroad runs less than one km east of this installation.

Road Service

A probable dirt road, an extension of the main Kalinovka-Vinnitsa road, enters the fenced area.

Administrative and Troop Housing Area

Area D contains one possible barracks, six storage buildings, five storage/support buildings, and six unidentified buildings.

Ammunition Storage Areas

Area F1 contains four 160- by 45-foot

ammunition storage buildings, 16 probable ammunition storage buildings (six 135 by 35 feet, one 150 by 35 feet, and nine 95 by 80 feet) and five small unidentified buildings.

Area F2 contains five unidentified buildings, one outside the fence.

[redacted] ing was observed on [redacted] photography at the site of the present bunker. The building then consisted of three wings with excavation in the center. The wings measured 80 by 65 feet, 65 by 65 feet, and 40 by 30 feet.
